## Building your corporate website is 'simple'

Focus on managing content rather than websites.

بناء موقعكم على الانترنت أصبحت عملية بسيطة  
يمكنكم الان التركيز على ادارة المحتوى بدلاً من بناء المواقع

## WWW.CANADAHITECH.COM

Most companies hire people with technical skills and marketing skills separately to manage their corporate websites. We help you keep your website under marketing control.

**CANADA HiTECH** provides complete website development services based on a highly efficient web content authoring software package (SaraCMS pro), developed to help users manage the publishing process on their websites & handling documents, images, and media files.

Sara CMS pro provides the ideal foundation for future upgrades towards having more sophisticated online services on your website.

The software is user friendly and full of features at the same time. Browser based rich text editor, Image gallery, & Polling system are few to name.
